- **James Tennant (Product Owner)**
- **Joel Sojan (Scrum Master)**
- **Jeffrey Yue**
- **Abel Asrese**
- **Sohail Syed**

The goal of **Cognize** is to **gamify** learning
using practice quizzes, exercises, tests and more

The goal of **Cognize** is to **gamify** learning using practice quizzes, exercises, tests and more

And to **quantify** learning by allowing users to accurately evaluate their knowledge and skills

Sprint 1: Minimum Viable Product (MVP)

Live Demo
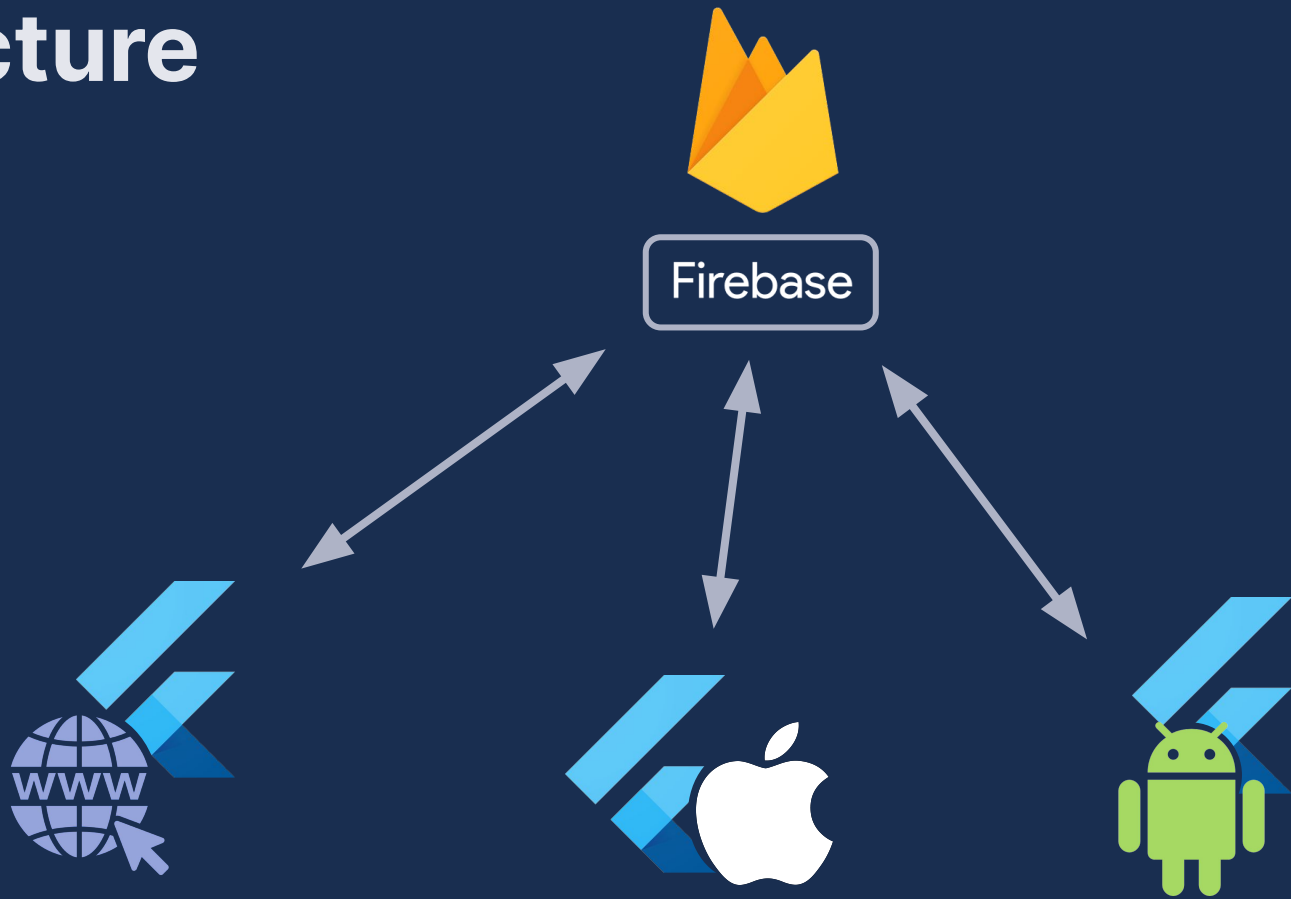

cognize.dev ↗

Technology

Firebase
+
Flutter

Architecture

Approach

- Figma for Vision

- Discord for Communication

- Task Board

- Firebase Console

Constraints

- Easily accessible

- User authentication

- Maintained Quiz progress

- Variety and quality of quizzes

- Self-publication of quizzes

Challenges

- Learning new tools
- Cross-platform (responsive)
- Animations
- NoSQL database

Goals

- User-created quizzes

- More than just multiple-choice

- Apple authentication

- Anonymous browsing

- Deployment

- CI/CD
